PROFILE

Highly skilled and self-motivated Full-stack Software Developer specializing in backend technologies within the realms of web development and web/data scraping. Excellent knowledge in Python and Django REST Framework for ERP & web base software development. My passion lies in problem-solving and my knack for analytical thinking with a keen eye for detail allows me to tackle software tasks with confidence. My leadership skills shine as I collaborate with engineering teams to elevate software capabilities, enhance efficiency, and deliver top-tier solutions, ensuring client satisfaction at every stage.

DIU WEBSITE DEVELOPMENT CONTEST- 2022

Achievements: 1st place (Champion).
https://github.com/Raju-Mia/childpoem

DIU website development contest- 2022 Internal competition only for final-year CSE department students. It was Team base project.
Language: JavaScript, HTML, CSS, Bootstrap.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER

Nimusoft Technologies Ltd.   Jan-2023 - **Present**
https://nimusoft.com

Role Responsibilities:
- Write, review, and maintain Python code for backend development in web applications and ERP software.
- Collaborate with the development team to troubleshoot and debug issues, implementing solutions to optimize performance. Ensure the codebase is scalable, efficient, and follows best practices.

STACK: (Python) (Django) (Django REST Framework) (JavaScript) (jQuery) (PostgreSQL)

PROJECTS INFO

NIMU ATTENDANCE (ERP).
https://attendance.nimusoft.com
Majority of my contribution went into developing Nimu Attendance ERP software, It's SaaS base HRM software. My contributions are authentication & authorization, attendance device integration, payroll module optimization, payment gateway integration and role-based permission management. Collaborates closely with the development team, ensuring integration of solutions and positively impacting the overall user experience. Also worked on API Development/Integration, Web Scraper, Data Collection, Data Visualization, Bot Development/Integration etc. still working on this project for many backend modules development.

MOSLAMA TRAVELS LTD (ERP).
http://moslamaint.com
As a Software Engineer (Full-Stack) for a Travel Agency ERP software, I led the core development team, managing project tasks, bug resolution, and feature implementation. My role involved client meetings to understand business needs, gathering requirements, task delegation, code testing, review, and collaborative coding.

DIGITAL SCHOOL MANAGEMENT SYSTEM.
https://school.nimusoft.com
In this project my responsibilities encompassed student admission processes, examination scheduling, and result management, streamlining essential academic processes for efficient school administration.

ADORN LASER CARE CLINIC.
https://adornlasercare.com
Overview: At Adorn Laser Care Clinic, I initiated and oversaw the deployment of crucial systems including authentication protocols and a streamlined booking management solution.

EDUCATION BACKGROUND

Sep-2018
Dec-2022

B.SC. IN COMPUTER SCIENCE & ENGINEERING

Daffodil International University
CGPA: **3.31** Out Of 4.00
